## Publication Recommendation

**Decision:** Accept with **minor revisions**.

The review is highly suitable for publication in a reputable oncology or pathology journal, contingent upon modest figure replacement, conciseness edits, and expanded global/clinical translation perspectives.

---

## Summary of Findings

- **Model:** ChatGPT 5 peer review.
- **Date:** 6 September 2025.
- **Article:** *Breast Carcinomas: General Hypotheses, Risk Factors, and Biological Behaviour – A Comprehensive Review.*
